

STAKEHOLDER ANALYSIS				
Project Name	Community Meal Planner Forum			
Name	Project Role	Power	Interest	Level of Support
Project Instructor	Guides and suggests paths for the project to take	High	High	Supportive
Meal Planning Service Developer	These persons are likely to use the project to make changes to their practices, applications, websites	High	High	Supportive
Meal Planning Service Company	Can use the project to make changes to their practices and services offered as a result of demand from the project	High	High	Neutral <i>(at times Supportive, could even be Unsupportive if they chose not to make changes as per demands)</i>
Meal Planner (Individual, Group, or Family)*	Required a space to discuss, for which the project provides. Decides whether the project is meeting their needs or not	High	High	Supportive
The Curious Meal Planner or Sustainable Practicer (not yet a member of community)	Likely to use the project as reading material	Low	High	Neutral
Sustainable Practice Mentor	Likely to use the project to voice opinions and demands, and provide sound information in response to discussion	Low	High	Supportive
Sustainable Practicer	Likely to use the project to voice opinions and demands	High	High	Supportive
The Random Lurker (not a member of the community)	Could possibly stumble upon the project and become better for it upon consuming information	Low	Low	Neutral

The north-star stakeholder is denoted with an asterisk (*).

It could be said that the actual power, interest, and level of support of stakeholders on the project, while in development, is low as the project is not an advertised or existing service. Should the project be released, these persons' interaction with the project will shape how it lives and what it can become, or if it dies off in obscurity.
